Turf Marking Foam

Harrell's Turf Marking Foam dissipates quickly without permanently discoloring sensitive grasses. Harrell's Turf Marking Foam is ideal for rough and fairway applications.

RECOMMENDED RATES

Add 6-10 oz. per 100 gallons of water based spray solution. Harrell's Turf Marking Foam may be used with all types of spray equipment.

DIRECTIONS FOR USE

Fill foam tank one-half full with water and add Harrell's Turf Marking Foam at the rate of 3 ounces per 2 gallons of water. Fill remainder of tank with water by placing the water hose in bottom of tank. Fill slowly to avoid premature foaming.

If foam is watery or runny, add more concentrate in small increments until thick "shaving cream" foam is produced. If foam is too thick, add water.

With extreme hard water, an increased amount of concentrate will be needed. Best results will be achieved if water temperature is 55° to 80°F. If water temperature is below 55° F, more concentrate may be needed to achieve desired results. Foam-generating tanks should be clean and free of other chemicals before adding concentrate.

When used in a tank previously exposed to other foamers, it is strongly recommended that the system be purged thoroughly at least two times. SHAKE WELL OR AGITATE BEFORE USING. Do not use this product on aquatic sites.

STORAGE AND CONTAINER

DISPOSAL

Store above 42°F. Store this product in a dry place, in original container only. Keep lid tightly closed. Keep away from open flame or intense heat. Triple rinse container and offer for recycling or dispose of in accordance with federal, state and local authorities.

WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
